The company acquires greenfield and brownfield land, priming the land for residential-led development by obtaining outline planning and delivering strategic infrastructure.

The history of Lands Improvement can be traced back to 1853; the company being founded to provide capital assistance to farmers. Today, Lands Improvement continues to work with farmers and a wide range of landowners to assess development potential of sites and add value through planning and infrastructure delivery.

Once planning permission is granted, Lands Improvement work with housebuilders by bringing the land forward for development, often by investing in key strategic infrastructure and acting as master developer. Lands Improvement has a proven track record of generating and realising value for all its stakeholders, both landowners, shareholders and communities alike.
