THE LOCATION

BIRMINGHAM

Location is everything

ECONOMY

A city of 1000 trades and a wealth of opportunity

Birmingham is not only the UK's largest city outside London, but also one of the country's biggest financial centres. The relocation of firms such as Deutsche Bank and HSBC will increase the number of affluent professionals making their home here. The diversity of the city's economy is supported by its reputation as a hub for creative industries and it is among the UK's fastest growing centres for digital media ventures.

There is a wealth of opportunity for companies seeking to expand or invest in Birmingham. The city has exceptional connections to local, national and international destinations. It lies at the heart of the UK's road network and boasts an international airport serving 9.4 million passengers per year to 140 direct and scheduled charter routes worldwide. The proposed HS2 rail link will potentially cut travel time between Birmingham and London to just 49 minutes.

THE DEVELOPMENT

THE VISION

A modern lifestyle

Park View is located to the South East of Birmingham, a part of the city that continues to experience huge transformation - major developments, significant transport infrastructure and vibrant communities are all clustered within walking distance. Park View will continue to capitalise on the dynamism this area is set to deliver.

HERITAGE

Creative thinking

Birmingham's creative quarter

The words 'Digital' and 'Digbeth' seem made for each other and that is perfectly reflected in the vibrant and progressive digital scene in the area.

Creativity and industrial architecture is juxtaposed with the city's newest green space, Eastside City Park, making Digbeth one of the most vibrant places to live.

PEOPLE AT HEART

The next generation

URBAN REGENERATION

A radical vision for revolutionising the city landscape

Park View's location is ideal to facilitate the growing number of digital technologies, design, television production and arts companies.

It's expected the area will also benefit from a mixed use scheme at the prestigious Typhoo Wharf and a canal-side residential neighbourhood.

URBAN PLANNING

PARK VIEW

A connected city

The Smithfield Masterplan will radically improve accessibility, reconnecting the site to Birmingham centre and beyond via an integrated public transport network.

Capitalising on the city's already established assets, the overarching vision for Birmingham Smithfield will be of a sustainable, green and inclusive place that has people at the heart of a zero carbon development. Travel will be made convenient and hassle free by the enhancement of walking, cycling and public transport systems, all central to the transformation of the area. A two minute ride on the Midland Metro tram will take residents to the HS2 terminus station at Birmingham Curzon Street, where eventually a journey onto London will be made in just 49 minutes. The reconnection of Bromsgrove Street, linking east to west, will further improve access with dedicated green bus and sprint routes serving the markets and leisure attractions.
