How Shared Ownership works

Shared Ownership is a Government-backed scheme to help you get on the property ladder with a smaller deposit.

How does it work?

You initially purchase between 35%–75% of the home's market value, you then pay subsidised rent on the remainder.

Am I eligible?

To be considered eligible for the Shared Ownership scheme your yearly income must be below £90,000 within London, or £80,000 outside of London. Those who already own a home are not eligible for the scheme.

Will I need to pay a deposit?

In most cases, you will need 5% of the share percentage you are purchasing.

A recommended mortgage advisor will be able to advise you on the best options available to you, so please ask us to refer you for further advice. If the property's market value is £200,000 and you're buying 35% then your proportion will be £70,000.

This means you'll need a deposit of £3,500 alongside a mortgage of £66,500. You're also able to own the property outright, by increasing your share to 100%.

Shared Ownership – Terms and conditions apply. All applicants are subject to qualifying criteria and status. Minimum and maximum share values apply and rent is payable on the unsold share typically set at 2.75%. Please speak to a member of our Sales Team for more details.
