The room features a red brick wall, a large window with sheer curtains, and a potted plant on a stand. A lit candle is on a small table next to him.

ABOUT SHARED OWNERSHIP

Now that you have found your dream property you're probably asking, "is Shared Ownership right for me?"

WHAT IS SHARED OWNERSHIP?

Shared Ownership is a Government-backed scheme to help you get onto or along the property ladder. The key advantage is that you only need a mortgage for the share you buy, which means you require a much smaller deposit compared to buying on the open market.

HOW DOES IT WORK?

You initially purchase between 25% and 75% of the home's market value. You then pay subsidised rent on the remainder. In the future, if your circumstances change and you'd like to, you can purchase more shares in your home, right up to 100%. As your share increases, the rent you pay decreases.

Through Shared Ownership you become a leaseholder and there will be a service charge to pay towards the management and maintenance of the development, which is shown on our price list.

AM I ELIGIBLE?

To be considered eligible for Shared Ownership your yearly income must be below £90,000 within London, or £80,000 outside of London. You cannot buy with Shared Ownership whilst you own another home.

Other eligibility criteria may apply which our sales team will be able to advise on.

WHAT ELSE DO I NEED TO KNOW?

Once you start your journey with us we'll provide you a number of key information documents about the home, the costs involved and about Shared Ownership as a product. Make sure you take the time to digest the information with these, and, of course, we'll be on hand every step of the way to answer any questions you may have.
