Welcome to Salden Place

Situated in the south western area of Milton Keynes, this development will grow into a brand new community containing energy efficient, modern homes for modern lifestyles.

View the site plan

The perfect place to be

Located in ever popular Milton Keynes, Salden Park as a whole will be an excellent new area for families to set up home with brand new future proofed homes, a school, various community facilities, green open spaces and a local centre with retail outlets.

Milton Keynes has recently been given city status and is an excellent draw for those working in the centre and wanting to have access to trains to London within 45 minutes, should they need it. Milton Keynes is also conveniently located on the M1 corridor making it easy to travel further afield. The development also neighbours the quaint village of Newton Longville - a lovely spot for a walk and visit to the charming thatched pub.

Personalise your home

A new Taylor Wimpey home is a blank canvas, ready for you to put your stamp on even before you move in. You can choose from a range of high quality options for your kitchen, bedroom and bathroom to suit your taste – and all from the comfort of your sofa. We offer dark and light kitchen units and patterned or plain tiles for your bathroom, so whatever your preferred style we've got you covered.

Using our innovative Options Online tool, you can visualise your new home room-by-room and customise each as you go. You can also choose your options with the help of your Sales Executive if you'd prefer.

Our customers have created some fantastic spaces in their homes and you can get inspiration from their choices by following us on Instagram. You can also check out a host of interior design tips on our website.

[!\[\]\(d66ff64371a51729ac8c1cdaa685ba6f_img.jpg\) Find out more](#)

Options availability is subject to build stage of plots and options won't be available if plots have reached a certain build stage. Please contact the Sales Executive for further information.

Included as standard

From the external features to the finishing touches, every detail of our homes is designed with our customers in mind.

While you'll have the choice to upgrade some of our standard offerings, all of our houses are fitted with a range of high quality features at no extra cost to you.

You'll find a complete list of all items that come as standard in your house below.

Kitchens

All of our kitchens are fitted with beautiful units and worktops and you can choose your preferred style and colour to create your perfect cooking and entertaining space.

A range of accessories including stylish splashbacks, a stainless steel sink and Zeno Taps, and lighting give your kitchen a clean, contemporary finish. You'll get a modern, energy efficient oven with an integrated hood and extractor fan too.

For those homes with utility rooms units will be fitted to match your chosen kitchen style, complete with a stainless steel sink and Zeno Taps.

Utility rooms†

Units will be fitted to match your chosen kitchen style, complete with a sink and tap. If your home has a toilet in the utility room, we'll fit a contemporary white basin and toilet for a sleek finish.

Bathrooms, en suites and shower rooms

Modern white sanitaryware, including toilet, basin and bath with chrome Ideal Standard taps give your main bathroom a clean look. The same sanitaryware is fitted in en suites and shower rooms which also benefit from an Aqualisa shower and glass enclosure.

For a distinct look, we offer a varied range of Porcelanosa ceramic wall tiles for you to choose from to make your bathroom and en suite stand out from the crowd.

Outside

The outside of your home is just as carefully considered as the inside. Your back garden includes a slabbed patio area and your privacy is protected by a garden fence. You'll also have an outside tap included to make watering your plants that bit easier!

All of the specification listed is included in our houses as standard. For the specification included in our apartments, please see the separate apartment specification list. Standard specifications are correct at time of going to print, but are subject to change without notice. Please contact the Sales Executive for further information. † = Where applicable.

Features you might find in your new home

Your new home will include a variety of energy-efficient features to help you save energy and reduce your carbon footprint, including:

Air source heat pumps

Air source heat pumps are a low carbon way to provide heat and hot water in a home. Heat pumps operate from electricity and therefore eliminate the need for gas boilers, so there is no direct use of fossil fuels in your heating and hot water systems.

Taylor Wimpey

Convert Sunlight Into Electricity For The Home

Sleek solar photovoltaic (PV) systems are integrated into the roof to provide a renewable source of energy. Low maintenance and with no moving parts, the solar PV panels will generate a proportion of your home's electricity requirements, reducing its energy demand and reliance on the grid.

- 1. Light**
The Sun Gives off light, even on cloudy days
- 2. The Panels**
Solar Photovoltaic (PV) cells on the panels turn the light into DC electricity
- 3. The Inverter**
The current flows into an inverter which converts it into AC electricity ready to use
- 4. The Electricity**
The current is fed through a meter and then into your homes consumer unit. The meter will measure all of the electricity generated by the solar PV system
- 5. Powering the Home**
Plug in and switch on. Your system will automatically use the free electricity you've generated, then switch back to the grid as needed
- 6. The National Grid**
Any electricity you don't use is exported to the grid for others to use.

Triple glazed windows

Triple glazed windows use three panes of glass to reflect more heat back into your home and prevent it from escaping. In addition to the meaningful thermal benefits, triple glazed windows also help reduce the risk of overheating which in turn adds to comfort levels in the home.

Appliances

Your home will have modern, energy-efficient appliances that allow you to enjoy all the comforts of home, whilst helping to keep your carbon footprint down.

Waste water heat recovery

Waste water heat recovery takes heat from the water that goes down the drain when you shower and uses that heat to pre-warm cold water from the mains via a heat exchanger (pipe) system. This means less energy is needed to heat the water you use, which in turn lowers emissions and energy bills.

Its purpose is to give a feel for the development, not an accurate description of each property. The illustration shows a typical Taylor Wimpey home of this type, but there are, however, variances from site to site. External materials, finishes, landscaping and the position of garages (where provided) may vary throughout the development. Properties may also be built handed (mirror image). Images may include optional upgrades at an additional cost. Please ask for further details. TWSM 85640 / October 2025.

*Plot specific windows. The floor plans depict a typical layout of this house type. For exact plot specification, details of external and internal finishes, dimensions and floor plan differences consult your sales executive. The sq ft/ sq m stated is the net sales area described in the RICS Code of Measurement 6th Edition. It is the area of the building measured to the plaster finish of the perimeter walls at each floor level. The measurement includes internal walls, service boxings and voids over stairs. It excludes internal garages and areas with less than 1.5m headroom. All dimensions are + or - 50mm and floor plans are not shown to scale. The kitchen layout and furniture positions are for indicative purposes only. The computer generated image is for illustrative purposes only and it is from an imaginary viewpoint within an open space area. Its purpose is to give a feel for the development, not an accurate description of each property.
