THE GREEN SCENE

Throughout Brightwell Lakes, there are designated areas of informal and formal green space. Nestled at the heart of the development, with heathland to the north, the existing lake has been retained and will be enhanced for residents to enjoy.

With a network of footpaths & trim trails providing easy access & connectivity to the lake where you can enjoy fishing, the use of new play areas for children and a beach with boardwalk, the lake will become a key focal point at the heart of the development for future residents.

To enhance biodiversity and preserve habitats, areas around the lake will have a specific wildlife focus.

These areas will have limited public access, creating low-disturbance environments to encourage local wildlife to flourish. Boundaries shall be signalled through fencing to help distinguish the areas that are accessible and those that are not.

The allotments and orchards will offer an outdoor community hub where gardening enthusiasts can hone their green thumbs and families can learn about cultivating fresh food.

CONNECTIVITY

Around Brightwell Lakes, green corridors connect green spaces and offer a range of enjoyable walks and opportunities for recreation.

A network of high-quality walking and purpose-built cycling paths will ensure residents are well connected to the surrounding area, open countryside, and key destinations through sustainable modes of transport.
