Who we are

A little bit about us

You're about to make one of the most exciting investments of your life! A beautiful place to call home for years to come. Here are some reasons to invest in a Persimmon home...

Over 50 years of expertise

We've been building homes and communities since the early seventies, and just as fashions have moved on, so too has construction. Over half a century we've perfected processes, fine-tuned materials and honed skills to make us one of today's most modern and progressive home builders.

Sustainability mission

We're committed to reducing our impact on the planet and building for a better tomorrow, with a dedicated in-house team focused on this. [Read more on page 22](#)

Save money on your energy bills

The increased thermal retention from our insulation and double glazing, along with reduced water use thanks to efficient appliances, mean you'll automatically save money on your energy and water bills – and with the rising cost of living, this can make a real difference.

Take a look at the recently published HBF Watt a Save report to find out how much you could save.

The Persimmon Pledge

The Persimmon Pledge is our commitment to making sure you receive exceptional customer service and relevant communications before, during and after you've moved in.

Find out more about the Persimmon Pledge.

Accessible homes

It's crucial that your new home works perfectly for you and your needs. We build in line with Approved Document M accessibility requirements.

Scan the QR code to find out what each rating means.

Happy hour

We run Customer Construction Clinics from our on-site sales offices each Monday from 5-6pm. Pop in to see the team both during and after you've moved in to your new home.

10-year warranty

When you buy a Persimmon home it comes complete with a 'peace of mind' 10-year insurance-backed warranty and our own two-year Persimmon warranty.

Help when you need it

You'll have a dedicated customer care helpline, plus cover for emergencies like complete loss of electricity, gas, water or drainage.

Finishing Touches
We know you'll want to make your home your own, so we created 'Finishing Touches', our home personalisation service. **Read more on page 24**

Energy efficiency built in

Sustainability

Our homes are typically 30% more efficient than traditional UK housing, helping you to save money and reduce your impact on the environment.

We're proud that we already build our homes to high levels of energy efficiency, but there's still a way to go. Our in-house sustainability team is dedicated to our mission to have net zero carbon homes in use by 2030, and for our own operations to be net zero carbon by 2040.

To achieve this, we're working to science-based carbon reduction targets in line with the Paris Agreement's 1.5°C warming pledge, investing in low-carbon solutions and technology that will further reduce the carbon footprints of our homes and our impact on the planet.

Energy efficiency built in:

- ✓ **PEA rating – B**
Our typical B rating makes our homes much more efficient than traditional D-rated homes.
- ✓ **Up to 400mm roof space insulation**
Warmer in winter, cooler in summer, reducing energy bills.
- ✓ **Argon gas filled double glazing**
Greater insulation and reduced heat loss.
- ✓ **Energy efficient lighting**
We use energy-saving LED lightbulbs in all our homes.
- ✓ **A-rated appliances**
Many of our kitchen appliances have a highly efficient A rating.
- ✓ **A-rated boilers**
Our condenser boilers far outperform non-condensing ones.
- ✓ **Local links**
We're located close to amenities and public transport to help reduce your travel footprint.
- ✓ **Ultra-fast broadband**
FibreNest fibre-to-the-home connectivity helps you live and work at home more flexibly.
- ✓ **Lower-carbon bricks**
Our concrete bricks typically use 28% less carbon in manufacture than clay, giving total lifetime carbon savings of 2.4 tonnes of CO₂ per house built.

6 reasons why it pays to buy new

Did you know?

Most of the benefits of buying new are obvious, but some are not. Here's a quick summary of the key reasons why it's such a smart move:

1.

No chain

Few things are more annoying in the home buying process than a time-consuming chain you can't control. Buying new limits the chance of getting involved in one.

2.

Energy efficient

Our homes include cost-effective combi boilers, first-rate loft insulation and draught-free double glazed windows to meet stringent energy-efficient standards, keeping your energy bills as low as possible.

3.

Brand new

Absolutely everything in your new home is brand new. You get all the latest designs and tech, complete with manufacturers' warranties. Win-win.

4.

More ways to buy

We offer a range of schemes to help get you on the property ladder, including Home Change and Part Exchange.

5.

10 year warranty

All our new homes come with a ten-year, insurance-backed warranty, as well as our own two-year Persimmon warranty. In the unlikely event you ever need to claim, our Customer Care Team are there to help you.

6.

Safe & secure

All our homes are built from fire-retardant materials and come with fitted smoke alarms and fire escape windows. They're also far more secure than older buildings thanks to the security locks and lighting we use.

Your home, your way

Finishing Touches to make it yours

Our goal is to make your house feel like your home before you've even collected the keys.

Key to achieving this is giving you the creative freedom to add your own style and personality to every room through our fabulous Finishing Touches collection.

Featuring the very latest designs from a host of leading brands, Finishing Touches lets you personalise your home inside and out. And rest assured, every upgrade and item available has been carefully chosen to complement the style

and finish of your new home. Of course, the real beauty is that all these extras will be ready for the day you move in.

Thanks to our impressive buying power we can offer almost any upgrade you can imagine at a highly competitive price. It can all be arranged from the comfort and convenience of one of our marketing suites, in a personal design appointment.

All about community

Proud to be building communities

When creating Ovinia Chase, not only did we create a lovely local environment for you and your family, we also contributed to the wider community.

Throughout the development process, we proactively engage with local communities and work closely with planning authorities. Ovinia Chase has achieved the right balance of homes and open space and the right mix of house types for a thriving community.

We also include much-needed homes for our Housing Association partners. Our plan enhances local facilities too, providing investment in local infrastructure such as transport, education, retail and recreation facilities, as well as initiatives to generate biodiversity.

“We’ve actively enhanced biodiversity at Ovinia Chase.”

Eco Range homes

New build homes are changing, and together, we're embracing the future. Recent updates to the Government's Part L building regulations mean from June 2023 our new Persimmon Eco Range homes will have a reduction of 31% in carbon emissions. This means a warmer, more energy-efficient home for you and the really cosy feeling of knowing it's better for the environment.

This means... **a saving of up to £6,730*** over the lifetime of a 25 year mortgage.

31% reduction in carbon emissions

Solar panels help boost your existing energy-efficient boiler using sustainable green energy. For full details of the number of solar panels (where applicable) and the location; please refer your sales advisor for details.

EV charging is a handy addition if you have an electric car, as you can charge it from the comfort of your own home. NB: Not all homes will have EV chargers as they're site and plot dependent. They can be added from our Finishing Touches range.

Enhanced loft insulation is a huge cosy blanket that slows down the transfer of heat between your home and the outside world. It not only warms your home in the winter but keeps it cooler in the summer.

Waste water heat recovery ensures the waste water from the shower heats the incoming cold water as it goes up the pipe so that the boiler doesn't have to work as hard to heat it.

More thermally-efficient walls mean less heat escaping, so you aren't as dependent on central heating, and whatever heat is generated is kept in your home.

Our panelised offsite-manufactured timber frame technology uses a unique, sustainable panel system which adds to the thermal efficiency of your home. *NB: not all homes will be built using timber frame technology.

Energy-efficient boilers use the latest technology to warm your already well-insulated home. The controls allow you to optimise your energy saving whilst keeping you comfortable.

A more thermally-efficient ground floor will mean you'll benefit from the additional insulation we're incorporating in the floor construction.

*When compared to a Victorian-built equivalent, savings could be up to £31,640. The £6,730 saving is in comparison to a Persimmon home built to current building regulations (2013).[†]NB: not all homes will be built using timber frame technology.

[^]NB: Not all homes will have EV Chargers, but they can be added from our Finishing Touches range.
