Innovation for a secure future

VISION

Welcome to Dorset Innovation Park, Dorset's only economic development site with Enterprise Zone status. Dorset Innovation Park is dedicated to building on its strengths in advanced engineering, marine, defence, energy and cyber-security.

We aim to be a centre for world leading innovation helping solve some of society's grand challenges:

- Keeping citizens safe (defence and national security)
- Food for all (food security)
- Powering our future (energy security)
- Protecting our planet (environmental security)

In doing so, we aim to create fulfilling well-paid jobs in businesses that drive our economy and provide social opportunity.

We are working to achieve this in partnership to provide the places, spaces and infrastructure to enable internationally significant innovation that "moves the dial" on these global security challenges.

Dorset Innovation Park is already home to pioneering businesses that are making waves in technology, engineering, defence, energy and innovation. Imagine the possibilities for the future of your business.
