SHARED OWNERSHIP

Shared Ownership makes it possible for many first time buyers get a foot on the housing ladder.

Buying a home in the current market is very difficult for many people. Shared Ownership makes it possible to buy a property which otherwise would not have been affordable.

You can usually buy an initial share of 25% to 75% of the value of a property, and you'll need to take out a mortgage to pay for your share of the home's purchase price. You will then pay a subsidised rent on the share you don't buy, and there will also be a monthly service charge payable.
