Newton Abbot TQ12 2JL

An open porch to a UPVC door which opens into a bright and airy hallway. There is a wall mounted cupboard high on the wall, which houses the fuse box and gas and electric meters and there is an obscure narrow window offering light. The hallway runs the depth of the house, through to the rear door.

There are several doors leading to the rest of the downstairs accommodation including a utility cupboard with space and plumbing for a washing machine and tumble dryer, a downstairs cloakroom, with low-level WC, wash hand basin and obscure window to the side, a storage cupboard and a door to the living room, following through to the kitchen/diner. The natural wood effect flooring runs through the hallway and into the lounge.

The Kitchen/diner has a range of light grey shaker style wall and base units with wooden worktops. Built in appliances include an integrated fridge/freezer, stainless steel extractor fan and a composite grey sink and drainer.

There is also space for a free-standing electric cooker and a front aspect window looks over the front gravel driveway. To the far end is ample space for a dining table and you can find a large cupboard which houses the IDEAL boiler.

Through to the stylish lounge, with a large rear facing window into the sunny south facing garden and a classic but contemporary column radiator.

Upstairs, there are two double bedrooms and a good sized single. Light-grey carpet is present in every bedroom and the landing, as well as the contemporary column radiators. There is a good-sized airing cupboard in the hallway offering space for towels and linen.

The family bathroom consists of low-level WC, wash hand basin and full-size bath with shower over. A large obscure window to the front offers plenty of natural daylight.
