The Perfect Partnership

Kings Oak Park is a joint development by two of the UK's and Kent's most successful builders, Orbit and Westerhill Homes. Together they are committed to building beautiful homes designed to delight all of their customers.

Victoria Quarter, Ashford

WESTERHILL HOMES

Established in 2009 and based in Kent, Westerhill Homes is a subsidiary of Chartway Group and is a privately-owned, independent developer and building contractor.

The company was founded on the principle that local building expertise can create quality homes designed to complement today's contemporary lifestyles. With practical, well-planned architecture and by utilising the latest techniques in ensuring energy-efficiency, every Westerhill home is completed to our signature high-quality standards, including superior-specification interiors.

At Westerhill Homes, the majority of our team members and supply chain contractors are local, so

we pride ourselves on our experience and expertise in developing and building new homes, the Kentish way. From our office junior to our Managing Director, we share a common goal - to provide each and every one of our customers with the perfect home. It's something our team takes great pride in.

Westerhill Homes subscribes to the Considerate Construction Code, and our exacting standards and sustainable credentials combine to create homes that will stand the test of time. Our after-care team are on hand to support our customers post-purchase, as required, once they are resident in their new home.

King Oak Park

ORBIT

Orbit was established in 1967 by a small but pioneering group of business people who wanted to make sure everyone could live in a good quality, affordable home. The passion they felt was channelled into positive action, and Orbit was created.

Our purpose today is every bit as important as it was when we were founded. We provide landlord services to over 45,000 properties and build around 1,500 quality new homes each year. Our aim is to ensure the homes we provide and the communities we create are high quality, affordable, safe and sustainable, and they really do become your place to thrive. In everything we do, we are committed to improving the long-term prospects of society. We do this through taking steps to protect our planet, investing in a range of projects to support communities, families and individuals, and ensuring we have in place sustainable working and excellent employment practices.

When you buy from Orbit Homes, you're directly influencing the lives of thousands of individuals in the UK. Our impact reaches far beyond the homes we sell, as we aim to make a positive impact in the communities where we live and work too.

We put back into our communities and society in a big way. Not just through our work as responsible landlords in supporting our tenants, but also by building a better planet for future generations. We are big on positive, greener actions, and have a dedicated programme called Orbit Earth to push our initiative further. So by buying from Orbit Homes, not only will you find your place to thrive, you will also help others do so too.

With each of our homes built to our own high standards, we operate under the ten guiding principles and requirements of the New Homes Quality Code for Home Builders (applies to Market Sale only), and we strive to help you find your place to thrive.
