The first floor is accessed from a GALLERIED LANDING with FOUR BEDROOMS, en suite and bathroom.

SETTING THE SCENE

Situated behind a five bar gate, the shingle driveway sweeps in front of the property, leading to the detached brick and tile garage building, with further parking also to the side. A range of outbuildings can be found to front, constructed in the same style and split into three sections. Two currently offer storage, and all offer exposed brick walls with plastered ceiling, a Velux window

and electrical power supply - one is currently used as a gym. The garage building offers an open plan double garage with two sets of twin doors. An external set of oak wood stairs lead to a first floor space and storage room - insulated offering annexe or home office potential with a water supply and electrical power already in place (stp).

THE GRAND TOUR

With a grand solid wood entrance door with full height glazing either side, your eye is drawn into the welcoming entrance hall, with the oak wood stairs rising up to the galleried landing and a feature exposed wall, highlighted by the partly glazed roof above. Italian stone flooring with underfloor heating runs through the ground floor, with a range of exposed beams on display. An opening to your right takes you to the full fitted study, with bespoke hand crafted shelving to one wall, and a window to front which offers the perfect back drop for a desk. Concealed under the stairs a walk-in cupboard can be found which houses the main utilities for the house, including the heating system. The sitting room has been designed to allow for private entertaining away from the main open plan space. Centred on a feature fireplace with a cast iron wood burner, the far wall is fully glazed with full height windows and French doors which look across the gardens and land. Wall lighting highlights the room, with beautiful solid wood timber beams running above. The open plan kitchen/living space sits under a vaulted ceiling, with a grand central timber beam. Following the theme of light and bright accommodation, full height windows face to front, with a dedicated dining and seating space

which faces a cast iron wood burner. With the Italian stone flooring continuing, the kitchen has been finished with a mixture of exposed wood and painted cabinets, with Madagascan blue granite work surfaces. Formed in a u-shape, a large island style space has been created, with space for appliances including a Range style cooker. From the kitchen area you can appreciate the space, which is warmed with the character feel including the exposed brick wall. A large opening takes you into the formal dining room - a versatile room with French doors onto the garden. A utility room leads off, with a matching fitted range of units and work surfaces, with space for laundry appliances and a butler sink. Doors lead to the outside, and to the ground floor wet room - finished with a contemporary three piece suite and rainfall shower. Upstairs, the landing includes a useful walk-in storage cupboard, and solid oak wood flooring. Four bedrooms lead off the landing, all with a different ambience created. The first on your right is set under a vaulted ceiling and with solid oak wood flooring under foot. The two middle rooms enjoy views across the main garden and land, with the main bedroom also under a vaulted ceiling with two high level feature windows and view across the garden. With bespoke built-in wardrobes, a door leads to the en suite shower room. With a luxury finish, the hand wash basin sits on a bespoke vanity unit with storage, whilst the rainfall shower is completed with tiled splash backs. The family bathroom is a similar finish, with a shower and separate double ended feature bath.
