THE FINER DETAIL

City & Country has a genuine passion to conserve, restore and newly create Britain's architectural heritage and we are immensely proud of our reputation for being the UK's leading developer of historic buildings. Through exceptional design and build standards, we embrace the best of the present and sensitively add value to very special places for the enjoyment of those today and for future generations to cherish.

As a family-owned business, City & Country has over 60 years of experience in the restoration and conversion of historic and listed buildings, and more recently, the development of new homes within the grounds of similar historic buildings, or within sensitive conservation areas. The business has achieved considerable success through a track record of delivering inspiring projects with a consistent attention to detail, innovative approach and a refusal to compromise on quality.

We work closely with heritage specialists, local authorities, and other conservationists to find sustainable uses for historic and listed buildings, bringing them back into beneficial use and ensuring their survival for the enjoyment of future generations. Our expertise lies in restoring and converting these buildings into unique dwellings of exceptional quality and character, providing modern and stylish homes, restored with sensitivity to maintain their timeless look and atmosphere.

City & Country specialises in developing and enhancing high profile, sensitive sites which require original thinking. Often, this includes the creation of high-quality new build homes within the grounds of the heritage buildings, which allows us to fund the restoration of the historic assets. Our new build homes are built to the same exacting standards, with the same creativity and imagination as our conversion properties.

The company has a dedicated team of in-house specialists whose expertise and flair help create outstanding places to live, which blend perfectly into their unique environments. Our craftsmanship and attention to detail enables us to produce some of the finest and most immaculately finished new and conversion homes within the industry.
