Shop offers every day amenities including a convenience store, primary school and Community Centre, whilst Kilkhampton, which is within a 10 minute drive, offers a much wider range of facilities. The popular seaside town of Bude is within just 20 minutes and the nearest beach, Duckpool Beach, is within 5 miles, where one can also access the stunning South West Coast Path. The property is accessed via a single track highway with very little in the way of passing traffic and enjoys complete privacy.

## West Milton Farmhouse

The farmhouse is a thatched five/six bedroom house which has been enhanced over the years with a large extension transforming the dwelling from a modest cottage into a spacious and light family home. The accommodation is currently arranged as one large house but lends itself to creating a two storey annexe within the existing accommodation if required.

In all the accommodation offers entrance porch and vestibule, dining room, sitting room, open plan kitchen/dining/living room, utility, shower room, games room, snug/office and bedroom 6 to the ground floor with five bedrooms (the master with dressing room, en-suite bathroom and Velux balcony window and bedroom two with an en-suite shower room) and a bathroom to the first floor. There are some wonderful wooden lintels exposed throughout the property and the kitchen/living room with a largely glass Apex is a particularly lovely feature. From bedroom 2 is a balcony (in need of repair) with views across the land and to the sea in the distance. There are three wood burners, one fitted in the games room and one in the dining room, and the Esse oven in the sitting room has a back boiler providing domestic hot water.

To the front is an enclosed garden and at the side is a long sweeping driveway ultimately leading to a turning circle offering parking space for multiple vehicles. Beyond the garden are small stables with internal and external lighting.

## Cornflower Cottage

Cornflower Cottage currently offers four bedroom accommodation though it may be possible to split the cottage into two smaller, attached dwellings (subject to consent – historic favourable pre-app for this) suitable for residential or holiday letting. The accommodation comprises entrance hall, two bedrooms (one now used as a store), kitchen, and a fabulous vaulted double-height sitting/dining room to the ground floor, with a mezzanine level suitable for office/study, and two further bedrooms to the first floor. Three of the four bedrooms are equipped with en-suite shower rooms. Pipework for underfloor heating to the ground floor is in place but is currently disconnected.

## Agricultural Barns

Alongside the cottage are double vehicular gates leading into the adjacent concrete yard which offers parking and turning space. Beyond the yard are two timber AGRICULTURAL BARNs. Whilst hugely useful in their present condition there may be potential to convert one or both of the barns into residential dwellings (subject to the necessary consents). Each barn has electricity and water connected and the larger of the two is fitted with a utility/w.c. and this barn is steel framed.

## The Land

The whole site extends to 48.9 acres (19.78 hectares) or thereabouts. Nearest the farmstead are a number of small enclosures ideal for chickens, goats, pigs etc and large grazing paddocks are situated towards the southern end of the farm with the southern most land comprising a belt of woodland extending to approximately 5.9 acres, being abundant with bluebells and leading down to a stream. There are a number of field shelters dotted around the fields and enclosures, one of which has electricity and light connected.
