What our customers say

“ Moving into a house that was already fully designed and decorated was such a huge relief and absolutely fantastic. It’s a beautiful home which the kids love. Space is what we were after and it’s exactly what we now have at Audley Chase. Our garden in particular is far more open than at our previous home.

I can’t speak highly enough of the Cala team. The end-to-end management has been

exceptional. Looking back, having started the part exchange process quite anxious, I now can’t believe how easy it was. All of the people involved were as friendly, personable and in touch as much as possible, removing all of the negotiation. Nothing was too much of an ask, despite the pandemic looming over us all. ”

Sustainability the Cala way

Cala has a rich heritage originally dating back to 1875. We started building homes in the 1970s and, for over 50 years, have been creating high quality, sustainable new homes and communities. However it is not just what we do, but the way we do it that matters to Cala.

Thinking sustainably is at the heart of everything we do; from identifying the right sites, through creating a safe, healthy and fulfilling working environment, to taking a sensitive approach to development and delivering communities that meet local requirements.

As part of our sustainability journey we are aiming to reduce our paper usage by 90% across the company, including the customer journey, which is why we are aiming for online only brochures at our developments.
