INVESTMENT SUMMARY

The next 4 pages are a projection of the potential return on your investment

We have looked at the potential returns in 4 different scenarios.
First at the current rent. Secondly at the potential rent.

For each of those 2 rental figures, we then looked at the return if:

1. You purchased with cash outright.

2. You put down a 25% deposit & borrowed 75% (75% LTV)

We also looked at the historic increase in value of property in the area.
We then used the historic performance to show the potential future increase
over the next 5 years based on the current market value.

- **Page 8 – Current annual rent returns for a cash purchase.**
- **Page 9 - Potential annual rent returns for a cash purchase & for 75% LTV purchase.**
- **Page 10 – Historic increase in value & potential future increase in value. Within the area.**
- **Page 11 – Combined potential rental & potential increase in value: to give a Total Potential Return - over 5 years**
