SITUATION

Springacres is positioned on the prestigious Wentworth Estate, which extends to approximately 1,750 acres lying within the Green Belt. Its history dates back to the early 1920s when the visionary developer, W G Tarrant purchased an agricultural estate around which he created his rural dream of substantial mansion houses set in beautiful mature gardens surrounding a golf course. Today there are three 18-hole championship golf courses and a 9-hole executive course. In addition there is the Wentworth Club with swimming pools, restaurants, tennis courts and a health and leisure club.

SPRINGACRES

This stunning new build home on the main island of Wentworth, Surrey, epitomises modern luxury and sophisticated living. Designed with both elegance and functionality in mind, the accommodation offers an array of beautifully appointed spaces, including a spacious study, formal drawing room, an elegant dining room, and a striking kitchen/breakfast room with high-end finishes. The inviting family room and a large utility room provide additional comfort and practicality for day-to-day living.

On the first floor there are five luxurious bedrooms, each with its own en suite bathroom, providing ample space for family and guests. There are also two further bedrooms, one bathroom and a separate kitchen above the triple garage. The entire home is equipped with advanced smart home features, including a Lutron HomeWorks lighting system and Crestron home automation, allowing for seamless control of lighting, security, and entertainment at your fingertips.

SPECIFICATION

1. Lutron HomeWorks QSX Lighting System

Whole-House Lighting Control: The property is equipped with the Lutron HomeWorks QSX lighting system, a world-class solution for smart lighting control. This system allows homeowners to create customized lighting scenes to suit any occasion, from relaxed evening settings to bright, vibrant spaces for entertaining.

Principal Bedroom Automation: The principal bedroom is outfitted with a motorized curtain track system, fully integrated with Lutron HomeWorks, offering effortless control over natural light and privacy.

Pre-Wired for Blinds and Curtains: The entire house is prewired for future integration of motorized blinds or curtains, providing the flexibility to expand automated shading across the property at any time.

2. Crestron Home Automation System

Complete Home Control: The home features the Crestron Home system, renowned for its ability to unify and control various aspects of smart home living. With Crestron, you can manage lighting, entertainment and intercom from a single, user-friendly interface. You also have the option to add the climate and security to the system.

Intuitive and Customizable: The system's interface can be accessed through wall-mounted touchscreens, mobile devices or optional remotes, giving homeowners the ability to control every part of the home from anywhere. The system is fully customizable to suit individual preferences and lifestyle needs, creating a truly tailored living experience.

3. 2N Video Intercom System

Enhanced Security and Communication: The 2N intercom system, integrated with Crestron, ensures secure and convenient communication with visitors at the gates. This high-definition video intercom allows homeowners to see and speak with visitors from the Crestron touchscreens inside the house or, with a 2N subscription, remotely through their smartphones.

Remote Access Option via App: With the 2N app, you can monitor and control access to the property, answer intercom calls, and unlock doors or gates from anywhere in the world, providing peace of mind and flexibility.

4. Sonos Multi-Room Audio System

Premium Sound Experience: The house is equipped with a Sonos multi-room audio system, providing seamless, high-quality sound in key areas of the home, including the Entrance Hall, Drawing Room, Dining Room, Kitchen/Breakfast Area, and the Principal Suite.

Outdoor Entertainment: The rear terrace features a Sonance Sonarray speaker system, delivering outstanding outdoor audio performance. This system is discreetly integrated into the landscape, making it ideal for outdoor gatherings or peaceful evenings in the garden.

App-Based Control: Control music from any room with the Sonos app, allowing you to play different tracks in separate zones or synchronize the entire house for a unified audio experience.

5. External 8-Camera CCTV System

Advanced Security Coverage: The house is equipped with an 8-camera external CCTV system, ensuring complete surveillance of the property. The cameras are strategically positioned to provide 360-degree monitoring and enhance the home's security.

Remote Monitoring and Control: Homeowners can access the CCTV system via a mobile app, allowing real-time viewing of live camera feeds, reviewing of past recordings, and receiving notifications about security events from anywhere in the world.

6. Full-House Wi-Fi Coverage, Including Rear Terrace

Seamless Connectivity: The property offers high-speed Wi-Fi coverage throughout the entire house, including the rear terrace. Whether you're working from home, streaming entertainment, or managing smart home devices, you'll enjoy uninterrupted internet connectivity throughout the property.

Optimized for Smart Devices: The Wi-Fi network ensures that all smart home systems, including Crestron, Sonos, CCTV, and the 2N intercom, are fully integrated and function smoothly across all areas.

7. Comprehensive Wired Network in All Reception Rooms and Bedrooms

Cat6 and Coaxial Wiring: Each reception room and bedroom is pre-wired with Cat6 Ethernet cabling and coaxial connections, providing high-speed internet and media access. This infrastructure ensures that every room has the option for reliable streaming, online gaming, or work-from-home needs.

Future-Proofed for Technology: The wired setup ensures the house is future-ready for evolving technology and high-bandwidth applications, providing stability and speed for all your connectivity needs.
