RELAX

They're Chestnut Homes

From the moment you step inside one of our homes, you'll discover superb modern living which has been designed, crafted and built to high standards.

Having developed across Lincolnshire for the past 36 years, we enjoy an enviable reputation for not only building homes of high quality but also creating attractive well-planned developments where new communities grow and flourish. Basically we build lovely homes in great settings.

The same care and attention is given to all the new homes across our stunning range. So whether you are taking your first steps onto the housing ladder, securing a home for your growing family, or looking to downsize we have a new home for you.

We are very proud to continue building in the beautiful town of Coningsby. Kings Manor has turned into a thriving community on the edge of this attractive town.

There are excellent local schools, community events and great sports facilities all within walking distance of Kings Manor.

So relax they're Chestnut Homes!

We love building our new homes, and we hope you will love living in one.

KINGS MANOR

Energy Efficient Homes

Energy Efficiency- Saving on bills!

A new home is highly energy efficient, with the Home Builders Federation reporting that new build homeowners save an average of £2,207* annually on energy bills compared to those in older homes.

Our new homes are packed with energy-saving features to help you reduce your bills. These include zoned heating, high- spec triple glazed windows, PV solar panels, high efficiency boilers, energy-efficient lightbulbs, and high thermal value insulation throughout walls, floors and lofts. Additionally, all our homes undergo air-pressure testing to ensure they are airtight, keeping them warm and cosy.

In essence, new build homes consume significantly less energy than older properties. According to HBF research, 85%* of new build homes achieve an A or B Energy Performance Certificate rating, while less than 5% of existing homes meet this standard

Protect your wallet and the planet

Old homes in the UK are among the least insulated in Europe**. However, there's good news: the average new build emits 2.2* tonnes less carbon annually compared to older houses, so by choosing a new home, you're helping to protect the planet.

Human activities have increased the atmosphere's carbon dioxide levels by 50%*** in under 200 years, so it's crucial we all contribute to reducing emissions.

We build our homes using local labour, enhancing our sustainability credentials.

Keep it cosy

Because our homes are so well insulated, you'll find they are naturally much warmer than older houses. Additionally, our high-quality triple glazed windows let in plenty of sunlight, keeping your home bright, airy, and to help reduce your heating needs. This means that in a Chestnut home, you'll likely use your heating less often, staying cosy and warm thanks to your choice to buy new!

A bucket full of savings

It's not just energy you'll save! With a new Chestnut Home, your water bill is likely to be significantly lower. Our homes are designed to use less water than older homes, featuring water-saving taps.

Water-saving taps help homes energy efficiency by restricting water flow, thereby minimising waste.

We include the latest water and energy-saving technologies as standard. In fact, our water-efficient kitchen and bathroom fittings can reduce daily water consumption by up to 26% per person compared to the national average**.

Solar PV

All homes benefit from Photovoltaic (PV) panels installed to the roofs at Kings Manor Phase 5, Coningsby.

PV panels, capture the sun's energy and convert it into electricity. Cells across the panels, which are usually made up from semiconducting materials like silicone, absorb sunlight and create a flow of electricity that can be used by your home during daylight hours. PV panels begin producing electricity as soon as they are installed - even when it is cloudy.

The benefits of PV panels are:

- By utilising the sun, your PV panels are an eco-friendly way of powering your home during the day - helping to reduce your carbon footprint.
- You will no longer need to solely rely on your energy supplier, enabling you to see a drop in your electricity bills.
- PV panels need little maintenance and benefit from being cleaned by rainfall.
- Homes with water cylinders benefit from energy diverted from the PV panels to heat the hot water during daylight hours. This significantly increases the amount of PV energy used within the home reducing bills.
- Surplus energy can be sold back to the grid - costs for this are agreed between the homeowner and energy supplier.

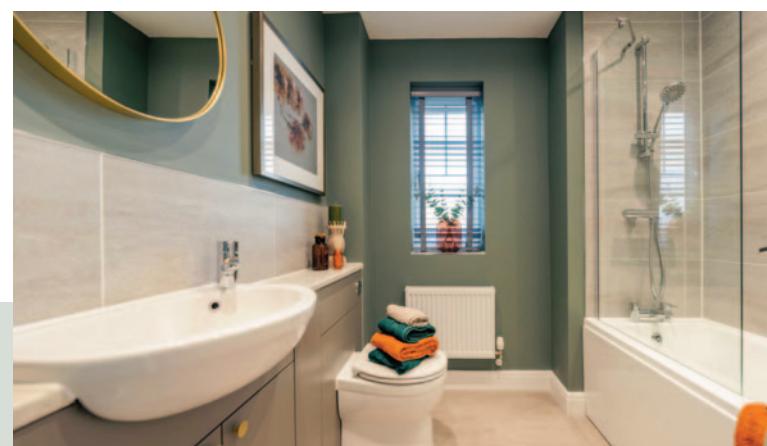

Please speak to our sales negotiator to get a detailed plan of where your PV panels will be located on your new home.

Unfortunately, Chestnut Homes are unable to upgrade the PV system to your home i.e. adding more panels or batteries.

Car charging points

All homes that have associated parking spaces within the legal boundary line of the property at Kings Manor Phase 5 will have an electric car charging point. Homes where the parking is separate from the boundary of the property (home) do not get electric car charging points****.

Looking to save on bills? Now's the perfect time to buy a new home. Chestnut Homes offers significantly lower monthly bills compared to older homes, without sacrificing personality.

Arundel House

A delightful 4-bedroom detached family home, with an open plan kitchen/diner family room, utility room, light and airy lounge and a study, perfect for those working from home. There is a large bifold door that opens onto the large garden making it perfect for entertaining. On the first floor you will find 4 bedrooms, a family bathroom and ensuite bathrooms to the master bedroom and bedroom 2. Arundel House benefits from a double garage and large driveway. A complete family home.

STYLE &

SUBSTANCE

Beautifully Designed

We have channelled our years of experience into creating homes designed for living.

We take great pleasure in creating stunning kitchens where you can not only whip up delicious home-cooked meals but also gather with friends and family in inviting open-plan layouts.

A home is your personal sanctuary, a place to relax and unwind after a long day, where children can play, and the family can enjoy cosy nights on the sofa. It's a space for family celebrations, summer barbecues with friends, or marvelling at the stars in the garden.

At Chestnut Homes, we focus on creating homes where you can fully embrace life. From sleek, bathrooms and en-suites to spacious open-plan kitchens, our homes are designed to be your personal haven.

Our friendly staff are here to help you choose the finishes that will complete your dream home (in fact, it's likely their favourite part of the job!).

We offer three levels of specification based on the floor area of your new home:

PREMIUM RANGE 

PREMIUM PLUS RANGE 

PLATINUM RANGE 

The specifications are indicated on each individual brochure page.

What Makes a House a Home...

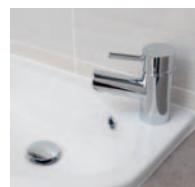

KITCHENS

The kitchen is the heart of the home, and we take special care to ensure it functions as beautifully as it looks. A space where you can create romantic meals, bake delicious cakes with your little ones, or lovingly prepare a Sunday roast for the entire family. Choose from contemporary or traditional styled cabinet doors, all featuring square-edged worktops. Sleek, built-in stainless-steel appliances complete your stunning kitchen, making every culinary moment special.

BATHROOMS

We dedicate a great deal of time and care into perfecting our bathrooms, so you can enjoy a long, soak in the bath or a refreshing hot shower to unwind after a challenging day. To help you personalise your dream bathroom or en-suite, we offer a wide range of stunning Porcelanosa tiles from Spain. Whether your heart leans towards bright, crisp whites or dark, moody ambiances, we have the perfect tiles to complement your taste.

SECURITY & SAFETY

Security comes first with multi-point locks to all external doors, so you can feel safe in your new home. Mains wired smoke, heat and CO2 detectors ensure that you can sleep safe in the knowledge that your home is being monitored. UPVC windows help with security and are of course low maintenance leaving you free to enjoy your new home and your leisure time.

Well over 95% of purchasers responding to our questionnaires say they would buy from us again, so we must be doing something right!

CONNECTED

All our homes at Kings Manor benefit from a fibre network for that all important broadband connection. All the wiring is brought into your new home, so all you need to do is sign up with your chosen provider to get connected. Contemporary switches and sockets are provided throughout your new home, we even include USB/USC sockets in key locations to make charging your phone or iPad (other brands are available!) as easy as possible.

BUILT-IN WARDROBES & STORAGE

Most of our new homes feature at least one built-in wardrobe that you can personalise to your own taste. Where possible, we've also included cupboards for that much-needed extra storage—because we all need a place to tuck away the Christmas tree! Our friendly team are on hand to provide you with all the details ... just ask!

PEACE OF MIND

We are very proud of our 'A Rating' with the NHBC (the highest you can get), which means you can buy from us with confidence. The NHBC Warranty lasts for 10 years. Pretty much everything in the first two years is covered apart from wear and tear, and the following 8 years ensures that all the main structural parts of your home are covered to give complete peace of mind. You will be provided with full details of the Warranty. Chestnut Homes also provide you with a 2-year warranty.

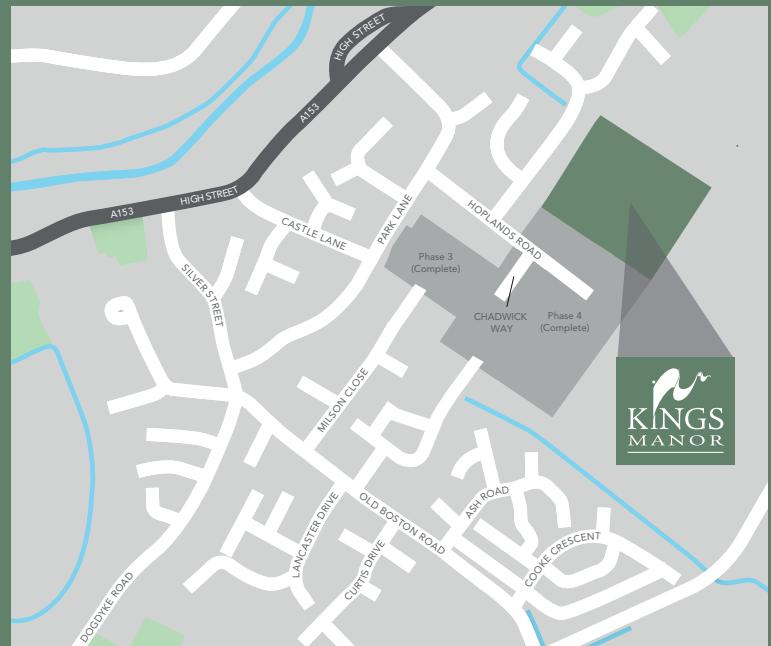

How to find us

We look forward to welcoming you to Kings Manor. You'll find us located off Park Lane, on Hoplands Road in Coningsby - set your sat nav to LN4 4UE.

Coming into the village from either direction on the A153, follow the road, which becomes High Street. Near to St Michael's Church, with its iconic one-handed clock face, is a junction - take the turning onto Silver Street.

On Silver Street, drive up past the Co-op on your right and directly opposite turn left into Park Lane.

Drive along Park Lane and take the first right into Hoplands Road. You'll find Kings Manor located at the end of Hoplands Road.
