## Description

Comprises a self contained site of Three Acres of hard standing container and vehicle storage. On the site sits a detached four bed house, office & residential building, newly built two storey warehouse building and single storey stables.

Our Clients have occupied the site operating a successful Self Storage Business including outside container and vehicle storage since 2017.

The site combines versatile storage facilities, offices for administrative purposes, Self Contained flat and modern four bed detached house.

The detached two storey house is a spacious four bedroom, three bathroom house in excellent decorative condition which also has the benefit of planning granted in 2017 to add an additional floor, two storey front and rear extension. The planning has been implemented and documented by the Local Authority.

The ground floor area of the two storey warehouse building has been split up to provide 105 storage rooms of varying sizes. The first floor is currently unoccupied therefore offering potential for additional self storage rooms or other uses.

The site provides significant potential for expansion and increasing the income, by letting the flat, house, offices and first floor of the warehouse together with substantially increasing the outside storage containers by using the unused hard standing areas of the site and doubling them up on the existing containers.

The site also lends itself for future development subject to obtaining the necessary planning
