# Welcome to Aspect

Set in the heart of Croydon, The View at Aspect is a tall and stylish masterpiece of modern architecture for today's urban living, towering several storeys above the vibrant street scene below. Intelligently designed around a bright and spacious central core, its 92 apartments benefit from a range of aspects from their full-height windows and winter gardens, which are flooded with natural light and enjoy ever-changing views across the varied landscape.

You'll choose from a selection of one, two or three-bedroom apartments, each flawlessly fitted and finished with modern bathrooms and kitchens, integrated appliances and light wood features throughout.

The reception lobby has a part-time Front of House team, as well as a multi-functional mezzanine for work and play, offering a welcome change of outlook on home-based days. And when the city calls, The View at Aspect makes commuting simple. There's ample, secure cycle storage in the basement, a tramlink stop just outside and East Croydon's train station a five minute walk away.

**The View at Aspect nestles comfortably in the street scene of central Croydon.**

Its structure respects the simple, linear design language of the surrounding architecture, with a contemporary twist coming from white and grey brickwork and imposing columns of smooth, white stone. At street level are vast panes of glass and intricately embossed panels – powerfully connecting The View at Aspect to Croydon's artistic identity.

## CALM, CONSIDERED LIVING SPACES

Spacious, bright and streamlined, our interiors are thoughtfully designed for modern living.

Natural light floods in through large windows, whilst a private winter garden – fully enclosed with sliding glass screens – makes al fresco working, dining or relaxing a reality in any weather. The neutral palette of the décor, combined with the use of natural textures and materials, creates a scheme which feels modern and minimal yet homely and liveable.

Sleek handleless kitchens boast integrated appliances, with warm wood features and statement flooring, and spacious open-plan living areas are complemented by fresh bathrooms and cosy bedrooms. With just a few apartments on each floor, even the landing areas have an exclusive, unrushed ambience – from the moment you step out of the lift.

# About Croydon

## Art, culture and a vibrant nightlife, just 30 minutes from Central London

It's not hard to see why Croydon has become one of the most popular London suburbs – ideally situated close to the buzz of city life, yet within touching distance of peaceful country villages and the seaside.

It's also one of the largest commercial districts outside of Central London, bustling with shops, independent restaurants, bars and plentiful leisure facilities – as well as being home to some of the UK's most exciting artistic talent. This means no two days are ever the same – and there's something new to discover around every corner.

### Close to hand

The Whitgift and Centrale shopping centres are just moments away on foot, housing an array of major high street stores under one roof – while one of the oldest known streets markets in Britain, Surrey Street Market, springs up daily in Croydon town centre. You'll find well-matched interior design inspiration is just 9 minutes' drive away, at IKEA Croydon.

# What is Shared Ownership?

Shared Ownership is a government-backed scheme aimed at helping people take their first steps onto the property ladder. Shared Ownership can make the buying process a lot more accessible, making it possible for you to buy a home you might have thought was out of reach.

With Shared Ownership, you purchase the share of your home that you can afford, starting from as little as 25% and up to 75% of the property's value. This means you need a much smaller deposit than if you were to take out a mortgage on the whole value of your home. You then pay a subsidised rent on the remaining share of your home alongside your mortgage payments. If you choose to, you can buy more shares of your home at any time until you own it outright, or you can sell on the share that you own.

Example cost of buying a one-bedroom Shared Ownership home with a full market value of £400,000:

\*Monthly mortgage based on an example interest rate of 5.5%. Rent is calculated based on paying 2.75% of the unowned share per annum, paid over 12 months.

## WHO IS IT FOR?

Shared Ownership providers have a duty of care to ensure that you purchase a share that is affordable to you, so buyers will require a financial assessment and approval from an Independent Financial Adviser in order to buy a home.

To purchase a home with Shared Ownership at Royal Albert Wharf, you should meet most or all of the following criteria:

- You should have a regular income to cover your mortgage and rent, and your household income cannot be higher than £90,000 (£80,000 for homes outside of London).
- You must be 18 or older at the time of completing your purchase.
- You should live full time, and have leave to remain, in the UK.
- You can't own a property, or share of a property in the UK or abroad, at the time of completing your purchase.

## WHY BUY SHARED OWNERSHIP?

### LESS DEPOSIT

Your deposit will be a minimum of 5% of the share that you are buying, not the full market value. That means you need much less deposit than when purchasing outright, so you can save money faster and buy sooner.

### MORE FREEDOM

With Shared Ownership you're an owner-occupier which means, unlike renting, you'll have long-term security and you can make your home your own with the freedom to live and decorate as you wish, and you can even keep pets.

### INVESTMENT

Unlike renting, Shared Ownership allows you to build equity in your home by paying down your mortgage. Also if the value of your home increases, so does the share you own. So when you sell your home you'll benefit from any price increase.

## WHY BUY NEW?

### PEACE OF MIND

Homes at Royal Albert Wharf have a 12 year structural warranty and a 12 month defects period from building completion. You will also be protected by the Consumer Code for Homebuilders, a Trading Standards approved code to make the home buying process fairer and more transparent for purchasers.

### MORE EFFICIENT

A new build home could be up to 55% more energy efficient\* than a comparable older property of a similar size. Modern build methods, integrated energy-efficient appliances and communal heating networks all work to reduce bills without reducing your home comforts.

### NO HIDDEN COSTS

All costs will be clearly set out in your lease including itemised service charges and estimates, how much rent you will pay on your unowned share, and caps on how much your rent can be increased over time.
