What we do

We are a property developer and manager with a proven track record for delivering high-quality homes in thriving Communities right across the UK. With us, you can look forward to outstanding quality and service, because we handle the whole development process — from acquiring the land, planning our sites and designing our homes, to building and selling or renting them.

As the UK's leading Social Enterprise, our overriding purpose is to create homes where Community matters. From small housing developments to large-scale regeneration projects, we tailor our homes to the needs of local People, take responsibility for our environmental impact, and put People First to build a sense of Community.

With more than 50 years' experience of managing and developing homes, we know what it takes to build happy, healthy and inclusive places to live. All our Communities are delivered by our award-winning, specialist placemaking, property investment and management companies across the UK, who ensure the places we create meet a variety of needs, not just now but well into the future. steps to secure your dream home

Here's what your Shared Ownership
home buying journey looks like...

Purchasing a Places for People home with Shared Ownership has never been easier. Whether you're buying for the first time or you've owned a property before, we've kept things simple so you're free to enjoy this next exciting phase.

From the moment you get in touch to that exhilarating day when you pick up your keys (and even after you've settled in), our friendly, experienced Sales team will be right by your side, supporting and guiding you every step of the way.

Get expert advice

The first step is to get in touch with our Sales team. We'll talk you through the Shared Ownership process and either refer you for an affordability assessment or arrange for you to visit.

Determine your budget

We will ask you to complete an affordability assessment with an Advisor, which includes filling in a 5-year budget planner to determine the level of share you can purchase.

Apply for a mortgage

If you're purchasing your new home with a mortgage, your affordability assessment is also when you will arrange with your mortgage lender or Advisor to proceed with your Shared Ownership mortgage application.

Exchange contracts

This is when things become official! Once you're happy with the legal contracts, you can sign them, pay your deposit and receive a completion date to move into your new Shared Ownership home.

Attend a home demonstration

Before completing, we'll arrange for you to attend your new home demonstration and access your Home User Guide, so you can get to know your Shared Ownership home and understand how everything works.

Start things moving

When you visit, we will check you meet the scheme's eligibility and affordability criteria. First and foremost is that your household income needs to be under £80,000 a year (£90,000 in London).

Reserve your home

Once your finances are in place, you can formally reserve one of our Shared Ownership properties and pay your reservation fee! Our team will continue to guide you through the process.

Instruct a solicitor

Now you've reserved your new home, you'll need to instruct a solicitor experienced in Shared Ownership to handle the legal aspects of the purchase. We can refer you to independent solicitors if needed.

Get ready to move

Now is the time to organise contents insurance, arrange removals quotes and set up or transfer accounts for TV, internet and utilities suppliers ready for when you change address.

Complete and move in

Legal completion is that happy moment when you own a share of your new home! Your mortgage lender transfers the funds, we arrange handover of your keys and you start living life your way!

Key information about the home

There are variations of shared ownership models which have different features. The model of shared ownership may vary depending on:

- what rules were in place at the time the home was funded or planning permission granted
- where the home is located
- whether the home is for a specific group of people

The table below highlights the key features of common shared ownership schemes. The information in this document is for the new model shared ownership.

Shared ownership model	Older model shared ownership	Standard model shared ownership	New model shared ownership
Minimum initial share	25%	25%	10%
Lease length	Typically, leases were issued for 99 years from new	Leases are for a minimum of 99 years from new but typically at least 125 years	Leases will be for a minimum of 990 years from new
Initial repair period	No	No	Yes
Buying more shares - minimum purchase	10% or 25%	10%	5%
1% share purchase	No	No	Yes
Landlord's nomination period	8 weeks or 12 weeks	8 weeks	4 weeks

When you are looking for shared ownership homes, you should always check the Key Information Document to see which model covers that specific home.

When you buy a home through shared ownership, you enter into a shared ownership lease. The lease is a legal agreement between you (the 'leaseholder') and the landlord. It sets out the rights and responsibilities of both parties.

Before committing to buy a shared ownership property, you should take independent legal and financial advice.

This key information document is to help you decide if shared ownership is right for you. You should read this document carefully so that you understand what you are buying, and then keep it safe for future reference. This document 'Key information about the home' is a summary and you should consider the information in 'Summary of costs' and 'Guide to shared ownership' before making a decision.

This does not form part of the lease. You should carefully consider the information and the accompanying lease and discuss any issues with your legal adviser before signing the lease.

Failure to pay your rent, service charge, or mortgage could mean your home is at risk of repossession.

The costs in this document are the costs as at the date issued. These will increase (typically on an annual basis) and you should take financial advice on whether this will be sustainable for you.
