Description

The site extends to approximately 0.48 acres (0.2 hectares), and comprises an attractive pair of late 18th-century Grade II listed buildings arranged over three storeys and basement, together with an associated car park to the rear. A single-storey entrance extension connected the buildings at ground floor. Existing plans can be found on the data room.

The Property is bounded by Silver Street to the east, Church Lane to the south and is immediately adjacent to 66 Silver Street to the north which is occupied by a pharmacy. Church Street car park which is operated by Enfield Council is located at the southern boundary of the Property.

The existing buildings extend to approximately 8,198 sq ft (761.67 sq m) GIA and are currently occupied by the NHS for use as a health centre. Alternative premises have been secured and they are due to relocate in March 2026, therefore the Property is offered with vacant possession on sale completion.

Planning

The Property is located within the borough of Enfield and is understood that its current lawful planning use is Class E, offering an excellent floorspace suitable for a range of occupiers including nursery, offices, medical and other commercial uses. The Property lies within the Enfield Town Conservation Area and comprises Grade II listed buildings in close proximity to other notable heritage assets, including the Grade II* listed Church of St Andrew.

Planning policy supports development in principle, subject to the sensitive treatment of the Property's historic significance. Given the heritage constraints, high density or tall redevelopment is unlikely to be appropriate; however there is potential for the sensitive conversion of the existing buildings, including reinstatement of residential use, subject to gaining the necessary planning and heritage consents.
