This map displays nearby coal mine entrances and their classifications.

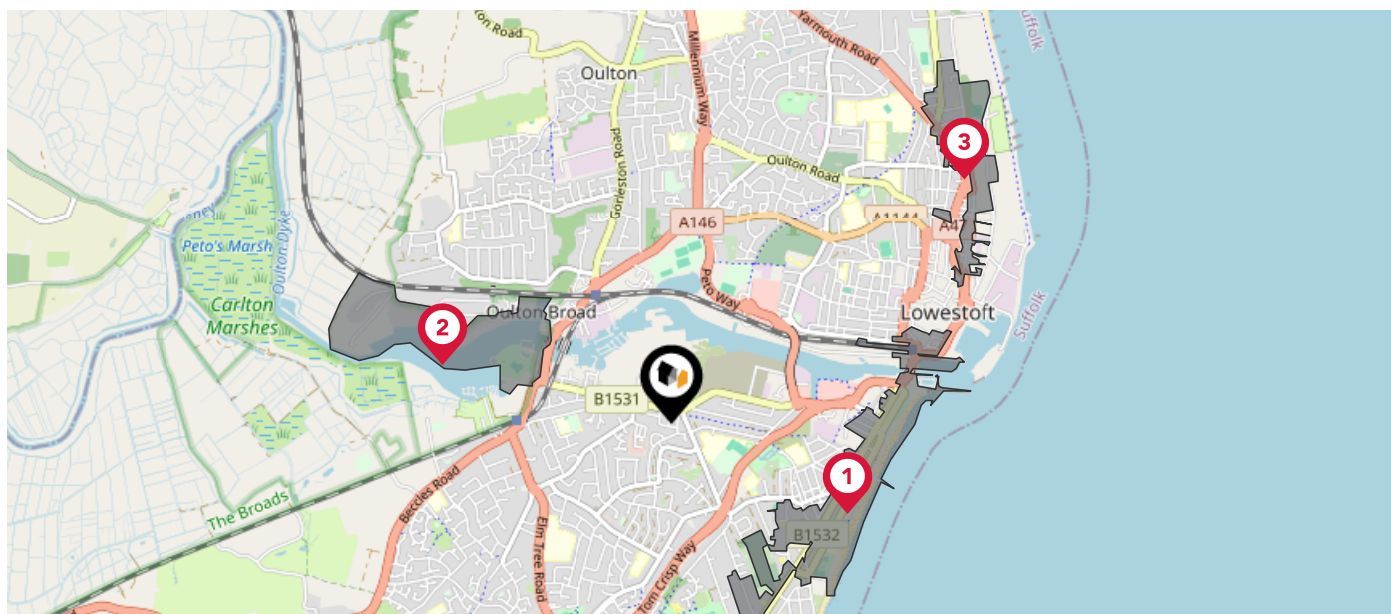

## Mine Entry

- ✕ Adit
- ✕ Gutter Pit
- ✕ Shaft

The Coal Authority has records of over 175,000 mine entries within the UK captured in the National Coal Mining database, derived from sources including abandonment plans, geological and topographical plans.

Coal mining activity is recorded as far back as the 13th century, but prior to 1872 there was no requirement to deposit abandonment plans. It is therefore believed there may be many unrecorded mine entries of which the Authority has no information or knowledge. These entries do not, therefore, appear within the Authority's national dataset as shown on this map.

This map displays nearby official conservation areas. Every local authority in England has at least one conservation area. Most are designated by the Council as the local planning authority, though Historic England and the Secretary of State also have the power to create them.

### Nearby Conservation Areas

South Lowestoft and Kirkley

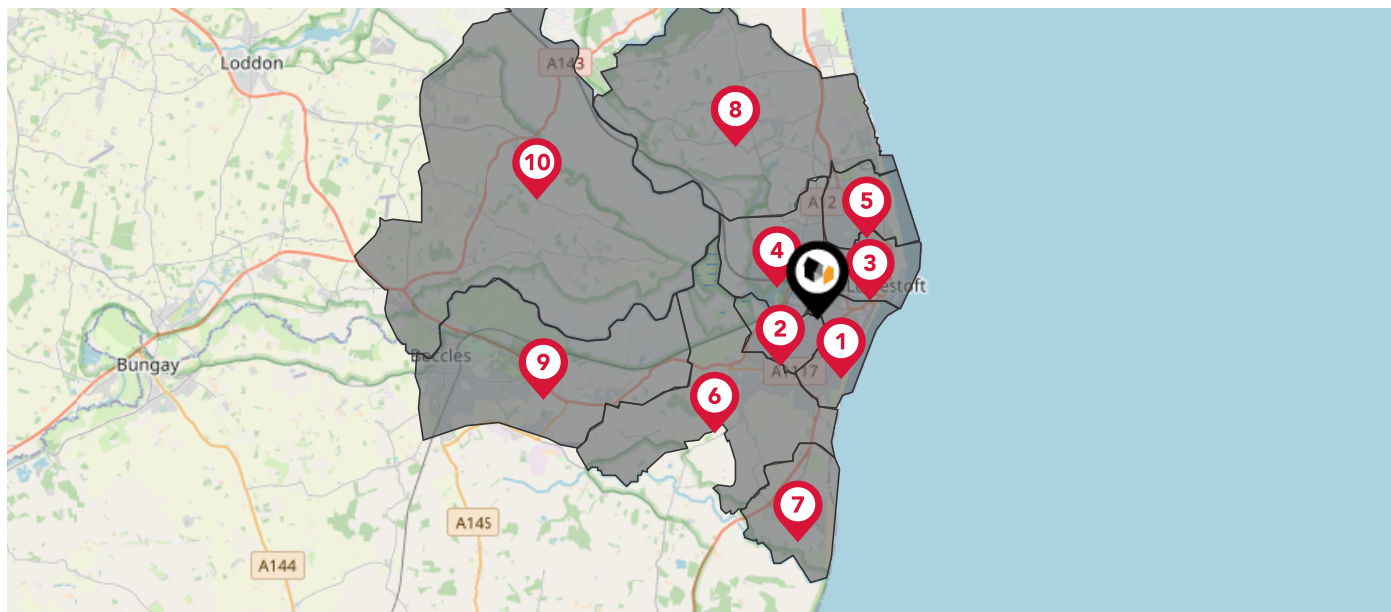

Oulton Broad

North Lowestoft

The UK is divided into wards that are used for local elections to elect local government councillors. Sometimes these are known as 'electoral divisions'. Population counts can vary substantially between wards, but the national average is about 5,500

### Nearby Council Wards

Harbour & Normanston Ward

Oulton Broad Ward

Gunton & St. Margarets Ward

Carlton Colville Ward

Kessingland Ward

Lothingland Ward

Beccles & Worlingham Ward

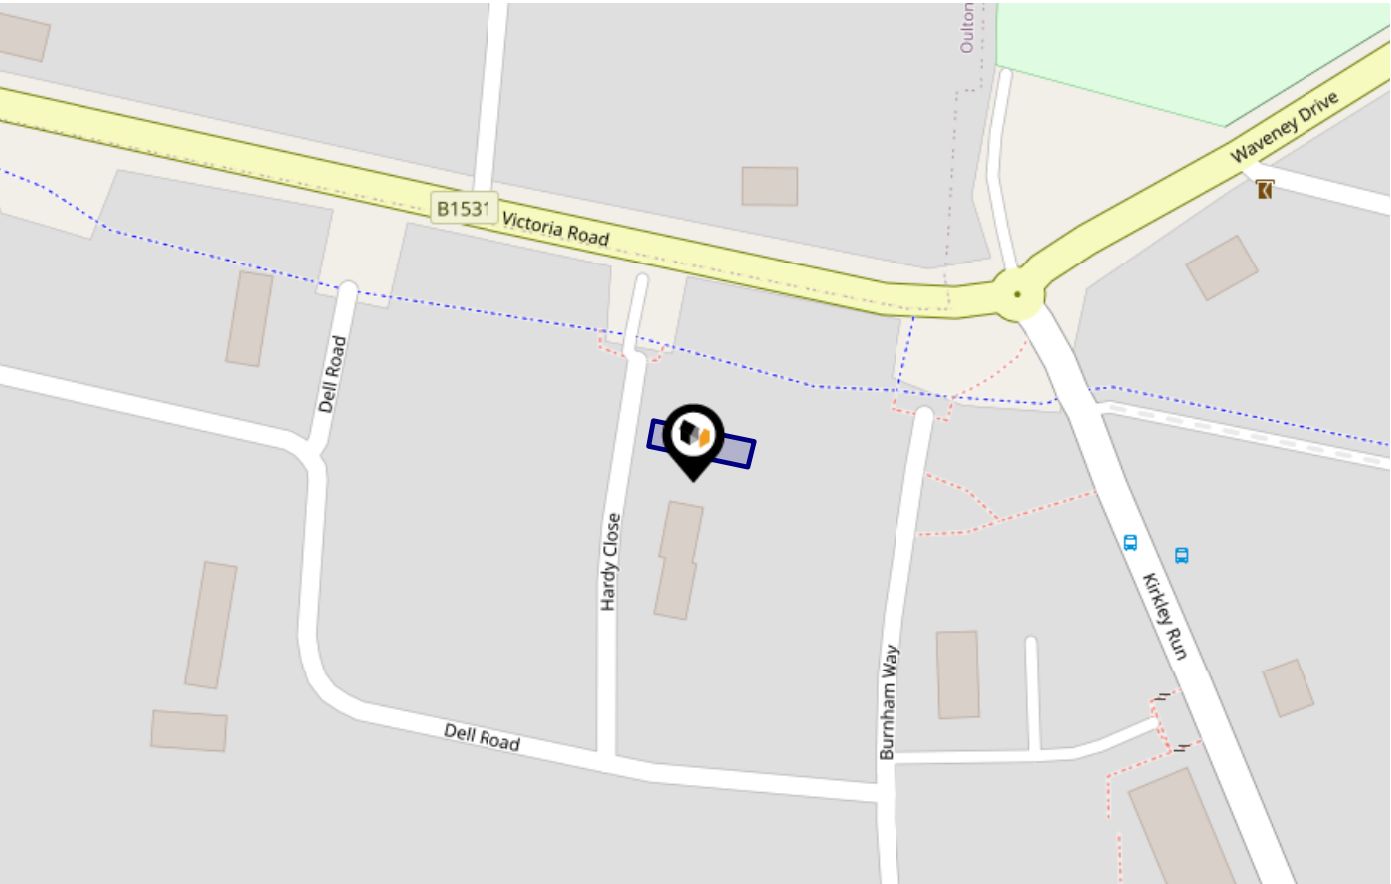

Thurlton Ward

# Flood Risk

## Rivers & Seas - Flood Risk

This map shows the chance of flooding from rivers and / or the sea, taking into account flood defences and their condition.

**Risk Rating: Very low**

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

- High Risk** - an area which has a chance of flooding of greater than 1 in 30 (3.3%) in any one year.
- Medium Risk** - an area which has a chance of flooding of greater than 1 in 100 (1.0%) in any one year.
- Low Risk** - an area which has a chance of flooding of greater than 1 in 1000 (0.1%) in any one year.
- Very Low Risk** - an area in which the risk is below 1 in 1000 (0.1%) in any one year.

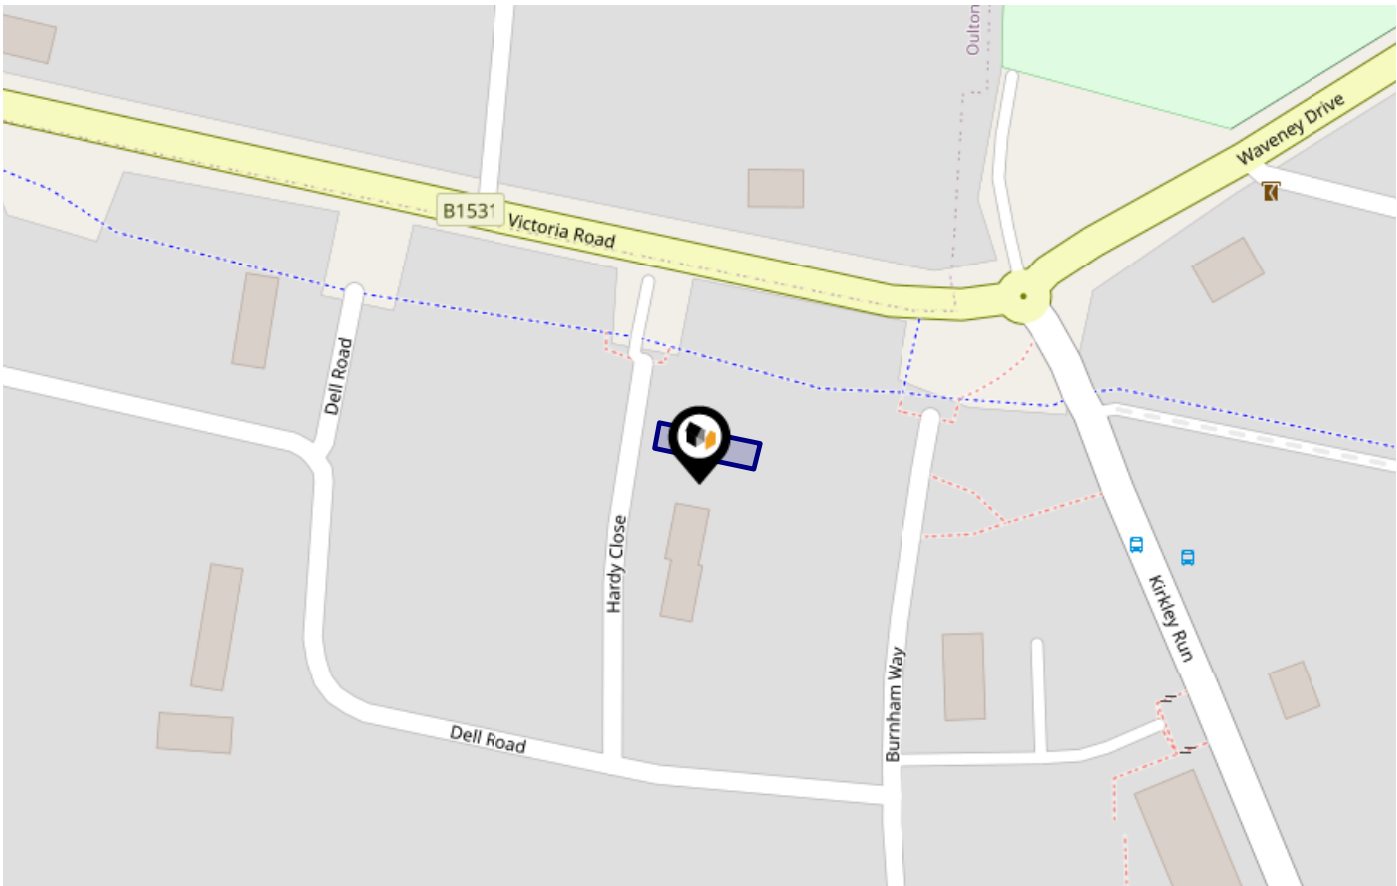

Chance of flooding to the following depths at this property:

# Flood Risk

## Rivers & Seas - Climate Change

This map shows the future chance of flooding from rivers and / or the sea **between 2036 and 2069**, taking into account flood defences and their condition. The government climate change models cannot predict exactly when the chance of flooding will go up. It could happen at any time during the time period.

**Risk Rating:** Very low

The map does not contain sufficient information for it to be used to determine flood risk to individual properties, but it does give you an indication of whether your area may be affected by surface water flooding at this risk level.

### Key:

-  Power Pylons
-  Communication Masts

### What is Radon?

Radon is a natural radioactive gas, which enters buildings from the ground. Exposure to high concentrations increases the risk of lung cancer. The UK Health Security Agency (UKHSA) recommends that radon levels should be reduced in homes where the annual average is at or above 200 becquerels per cubic metre (200 Bq/m<sup>3</sup>).
