It is a space that immediately connects the home, both practically and visually.

Dining Room

12' 6" x 15' 1" (3.80m x 4.60m)

Exceptionally spacious and beautifully proportioned, the dining room offers an almost expansive setting for both everyday living and entertaining. A contemporary media wall provides a subtle focal point, adding architectural interest without overwhelming the space. Recessed within the room, a bespoke L-shaped bench seating area frames the dining table – an architectural feature that feels both contemporary and inviting, creating a defined yet intimate setting within the generous scale of the space. Open in its connection to the hallway and principal living areas, it draws you naturally further into the home, setting the tone for the proportions that follow.

Kitchen/Breakfast Room

11' 2" x 19' 4" (3.40m x 5.90m)

Expansive in scale and thoughtfully designed, the kitchen and breakfast room forms a natural gathering space at the heart of the home. U-shaped low-level cabinetry is complemented by extensive worktop surfaces and an integrated breakfast bar, creating both practicality and flow. Floor-to-ceiling cupboards provide substantial storage, while a contemporary eye-level double oven reinforces the modern aesthetic. Bathed in natural light from French doors opening onto the patio, and further illuminated by a large window above the sink overlooking the garden, the space feels bright, open and connected to the outdoors. A door leads to the adjoining utility room, while a separate side entrance provides access to a private courtyard – adding flexibility and convenience to everyday living.

Hallway

Flowing naturally from the dining area, the inner hallway provides a defined yet open transition to both the expansive living room and the private upper level. Thoughtfully arranged, it balances connectivity with separation – guiding movement through the home with ease. From here, access is provided to the integral garage, while discreet storage is cleverly positioned beneath the staircase, almost hidden from view. It is a functional space, designed with intention, quietly linking the home's social and private areas.

Living Room

18' 4" x 20' 8" (5.60m x 6.30m)

Impressive in both scale and proportion, the living room is a principal reception space designed to make a statement without excess. The generous footprint allows for multiple seating arrangements, creating a room equally suited to large gatherings and quieter evenings alike.

Expansive French doors extend the space outward onto the patio, drawing natural light deep into the room and establishing a seamless relationship between interior and garden. This connection enhances the sense of openness while maintaining privacy.

A central chandelier introduces understated elegance, suspended within the generous ceiling height, while the feature fireplace provides a natural focal point – adding warmth, balance and architectural structure to the space.

Refined rather than ornate, the room is defined by its proportions and light. It is a setting designed for both relaxed family living and formal entertaining – grand in presence, yet calm in atmosphere.

Utility Room

6' 7" x 11' 6" (2.00m x 3.50m)

Located just off the kitchen, the utility room is notably generous in size. Fitted with U-shaped cabinetry and additional worktop space, it offers excellent storage and preparation areas, almost functioning as a secondary kitchen if desired. A large window provides natural light, while a sink and dedicated appliance space ensure practicality is delivered without compromising the overall aesthetic.

WC/ Shower Room

6' 7" x 7' 3" (2.00m x 2.20m)

Thoughtfully placed, they provide brightness while maintaining privacy. The gently sloping ceilings add character and architectural interest, giving the room a distinctive feel without compromising on space. A versatile and well-balanced bedroom, equally suited to family use, guests or a creative workspace.

Bedroom 5

12' 2" x 15' 5" (3.70m x 4.70m)

Mirroring the proportions and layout of Bedroom Four, Bedroom Five offers the same generous scale and architectural character. Dual Velux windows introduce excellent natural light, while the gently sloping roofline adds interest and warmth to the space. Balanced, bright and thoughtfully arranged, it provides a further substantial double bedroom, ideal for family, guests or flexible use.

Family Bathroom

Spacious and beautifully appointed, the family bathroom combines contemporary design with everyday practicality. A freestanding bath forms an elegant focal point, complemented by a generous walk-in shower.

Crisp white sanitaryware enhances the clean, modern aesthetic, while a large Velux window introduces abundant natural light without compromising privacy.

Study / Home Office

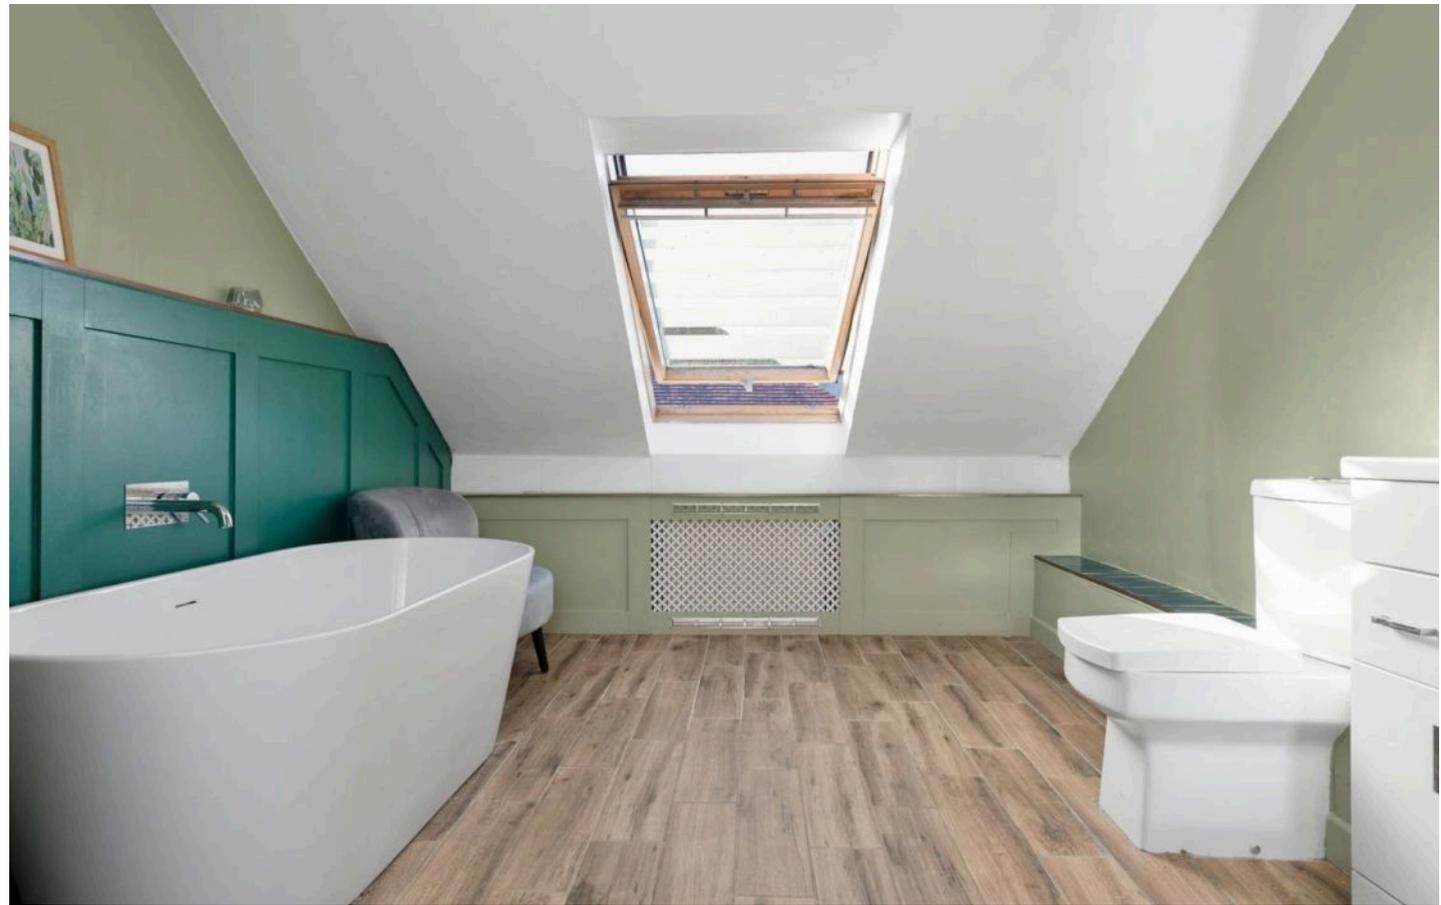

Cleverly positioned to the side of the upper landing, the study offers a rare balance of seclusion and openness. Internal glazing allows light to flow from the landing, while a large Velux window above draws in additional natural light, creating a bright and uplifting workspace.

Thoughtfully designed, the room feels private enough for focused work yet remains visually connected to the heart of the home.

Staircase & Upper Landing

The staircase rises to a notably spacious upper landing, where natural light pours in from Velux windows within the attic extension above. Clever internal glazing panels subtly separate the study area, allowing light to travel freely while maintaining definition.

Modern in finish yet warm in atmosphere, the landing leads to the principal bedroom, two further bedrooms, the family bathroom and the dedicated study.

Garden

The rear garden is expansive, mature and beautifully established – a private outdoor setting designed for both relaxation and entertaining. Enjoying sunlight throughout the day, the garden is framed by considered planting and generous manicured lawns that create a sense of space and calm. A raised patio terrace extends seamlessly from the French doors of both the kitchen and living room, providing a natural continuation of the internal living areas. Beyond, two further patio spaces offer flexibility for outdoor dining, seating or quiet retreat, allowing the garden to be enjoyed from morning through to evening. Positioned at the rear of the plot, the garden studio is a true stand-out feature. Expansive in scale and thoughtfully appointed with its own bar area, it transforms effortlessly into an evening entertaining space – equally suited to hosting guests, relaxing with family or creating a dedicated retreat away from the main house. This is not simply a garden. It is an extension of the home's lifestyle offering – private, versatile and designed to be enjoyed.
