1 Lakeside Drive, Esher, KT10 9EZ

Award winning designed five bedroom home in an exclusive lakeside development

Asking Price £1,750,000
The Property:

This award winning detached house was designed by renowned architect Royston Summers in 1975. It is an architecturally striking house located in a small exclusive development of similar properties with landscaped gardens and surrounding a beautiful lake, just off Copsem Lane in Esher.

The lakeside view can also be enjoyed inside from the bright and generously proportioned living room which has a complete wall of framed glass to enhance the view over the water. Internally the house was created to enhance the impression of space and light with its high ceilings and large windows and to maximise the delightful views of the lake, which it does successfully. Throughout the property the use of fine Canadian White Rock Maple adds a certain quality and warmth to the interior.

In addition to the large living room the house also offers a separate formal dining room, a family room and kitchen/breakfast room. From the main reception room, wooden stairs rise to the first floor galleried landing, providing access to the recently added large master bedroom suite, four further double bedrooms and served by three contemporary bathrooms.
