IMPORTANT NOTES ABOUT THIS DECISION

DURATION OF THIS PERMISSION

In accordance with Section 58 (i) of the Town and Country Planning (Scotland) Act 1997 as amended, the development to which this permission relates must be begun not later than the expiration of 3 years beginning with the date on which this permission is granted.

If the development has not commenced within this period then this permission shall lapse unless there is a specific condition attached to this permission which varies the stated timescale.

COMMENCEMENT AND COMPLETION OF THE DEVELOPMENT

The following are statutory requirements of the Town & Country Planning (Scotland) Act 1997, as amended. Failure to meet their respective terms represents a breach of planning control and may result in formal enforcement action. Copies of the notices referred to below are attached to this permission for your use.

NOTIFICATION OF INITIATION OF DEVELOPMENT

S.27A of the 1997 Act, as amended requires that any person who has been granted planning permission (including planning permission in principle) and intends to start development must, as soon as practicable after deciding the date they will start work on the development, give notice to the planning authority of that date. This ensures that the planning authority is aware that the development is underway and can follow up on any suspensive conditions attached to the permission. Therefore, prior to any work commencing on site, the applicant/developer must complete and submit to the Moray Council, as planning authority, the attached Notification of Initiation of Development.

NOTIFICATION OF COMPLETION OF DEVELOPMENT

S.27B of the 1997 Act, as amended requires that any person who completes a development for which planning permission (including planning permission in principle) has been given must, as soon as practicable after doing so, give notice of completion to the planning authority. This will ensure that the planning authority is aware that the development is complete and can follow up any planning conditions. Therefore, on completion of the development or as soon as practicable after doing so, the applicant/developer must complete and submit to the Moray Council, as planning authority the attached Notification of Completion of Development.

NOTIFICATION OF COMPLETION OF PHASED DEVELOPMENT

Under S.27B(2) of the 1997 Act, as amended where permission is granted for phased development, the permission is subject to a condition (see Schedule of Conditions above) requiring the applicant/developer as soon as practicable after each phase to give notice of that completion to the planning authority. This will allow the planning authority to be aware that particular phase(s) of the development is/are complete.

When the last phase is completed the applicant/developer must also complete and submit a Notification of Completion of Development.

ADDITIONAL NOTES FOR INFORMATION OF THE APPLICANT

The following notes are provided for your information including comments received from consultees:-

THE BUILDING STANDARDS MANAGER, has commented that:-

A Building Warrant will be required for the proposals. Should you require further assistance please do not hesitate to contact Building Standards, Environmental Services Department, Council Office, High Street, ELGIN IV30 1BX or by telephoning 01343 563243.

THE CONTAMINATED LAND SECTION has commented that:-

This property has been identified from Council archives as being located 12 metres southeast of former underground petrol tank. Moray Council does not have any further information as to whether the ground is contaminated. You should consider investigating this matter further prior to proceeding with the proposed works. Should contamination be encountered, contact the Environmental Health section immediately (email contaminated.land@moray.gov.uk, tel 0300 1234561) to agree an appropriate course of action.

Comments received from SCOTTISH WATER are attached for your information.

THE TRUNK ROADS AUTHORITY, has commented that:-

The applicant should be informed that the granting of planning consent does not carry with it the right to carry out works within the trunk round boundary and that permission must be granted by Transport Scotland Trunk Road and Bus Operations. Where any works are required on the trunk road, contact details are provided on Transport Scotland's response to the planning authority which is available on the Council's planning portal.

Trunk road modification works shall, in all respects, comply with the Design Manual for Roads and Bridges and the Specification for Highway Works published by HMSO. The developer shall issue a certificate to that effect, signed by the design organisation.

Trunk road modifications shall, in all respects, be designed and constructed to arrangements that comply with the Disability Discrimination Act: Good Practice Guide for Roads published by Transport Scotland. The developer shall provide written confirmation of this, signed by the design organisation.

MANAGER (DEVELOPMENT MANAGEMENT) has commented that:-

It is noted that your planning application proposes a septic tank and soakaway/infiltration drainage system and the suitability of the ground condition to accommodate this will be dealt with as part of your Building Warrant application. Full details of a ground assessment, trial pit investigations and percolation test results, from a suitably qualified person as contained within the Council's List of Approved Certifiers, will be required prior to obtaining a Building Warrant

An application for a Building Warrant and compliance with the Building Regulations are entirely separate from Planning procedures. Furthermore, the granting of Planning Consent does not guarantee approval of a Building Warrant.

If you have not already done so and you may wish to satisfy yourself about the adequacy of ground conditions separately at this stage, if so I recommend that you contact the Building Standards Section directly at Environmental Services, The Moray Council, Council Offices, High Street, Elgin, IV30 1BX, telephone(01343) 563243.

Please note that any proposed discharges to land or the water environment will require authorisation from SEPA under the Water Environment (Controlled Activities) (Scotland) Regulations 2011. For further details refer to SEPA website http://www.sepa.org.uk/water/water_regulation/regimes.aspx.

THE TRANSPORTATION MANAGER, DIRECT SERVICES has commented that:-

Planning consent does not carry with it the right to carry out works within the public road boundary.

Public utility apparatus may be affected by this proposal. Contact the appropriate utility service in respect of any necessary utility service alterations which have to be carried out at the expense of the developer.
