The Highfield development in Willesborough remains popular with families and it's clear to see why. A choice of schooling on your doorstep, easy access to amenities with the M20 motorway just a short drive away (junctions 10 & 10a) and the William Harvey Hospital within easy reach too.

This traditionally built home offers generously proportioned rooms throughout, and benefits from additions and updates which the current sellers have thoughtfully included within their ownership. A very good example of a 'turnkey' home where you can

move in with no work required. In recent years both the kitchen and bathroom have been updated, whilst more recently, the whole house has been re-decorated throughout and new carpets laid. There have also been some fantastic improvements within the garden with the addition of a decked area, great for entertaining in the warmer months, raised borders and new fencing to the boundaries.

One of the lovely features of this home, not to be mistaken with other homes on the development is the layout and room sizes on offer. Upstairs you'll

- Three-bedroom semi-detached house
- Well-presented throughout
- Generously proportioned rooms
- Garage and driveway parking

find three generously sized bedrooms, two large double bedrooms and a smaller room still suitable for accommodating a double bed and a large family bathroom, comprising a three-piece suite currently but with plenty of space to re-configure and include a walk-in shower if necessary.

The ground floor has a lovely flow too, the entrance hallway offers a useful storage cupboard and leads into the through lounge, leading itself to the kitchen/dining room which spans the width of the house. Also off the lounge are the stairs to the first floor and another handy storage cupboard beneath.

Externally to the front is a driveway, offering space to safely park your car off the road, and leads to the garage with a lift up door. There is also a large front garden, which could be sectioned off and the driveway increased, should this be desired.
