- High specification kitchen with integrated appliances
- App based CCTV and intercom/security entry system
- Stunning landscaped communal areas and Gym

PROPERTY DESCRIPTION

No 10 Scocles Court is a striking and impressive four bedroom end mews home with distinguished architectural design by London practice Nicholas Bird in the Kentish barn style.

Located off Scocles Road in Minster On Sea the property is one of just 15 homes forming part of this exclusive, private development designed in the style of an organically evolved English hamlet. Surrounding the homes are stunning landscaped grounds with attractive mature planting and both natural and man made features, including a landscaped pond, outdoor mini gym, pergola, leisure and picnic areas.

The property has been designed and built in the Passive House style.

Buildzone' warranty is included on the property.

THE SETTING

Scocles Court is approached along a private tree lined drive off Scocles Road. No 10 is set back from the approach and adjacent to a natural pond, attracting ducks, geese and other wildlife.

THE ACCOMMODATION

The property provides in excess of 1940 sq ft of spacious, modern living accommodation and has been designed to maximise the influx of natural light. On the ground floor is a large open plan kitchen / lounge area that can be divided into two separate spaces via double pocket doors. The lounge also features sliding glazed doors that open onto a paved area ideal for alfresco dining and generous enclosed rear garden laid to lawn.

The contemporary kitchen is finished in anthracite with striking marble worksurfaces and soft-closing doors and drawers with brushed satin handles and large pull-out larder. Integrated into the scheme are high quality fittings and AEG / BOSCH appliances including oven with steam function, extractor hood, five ring induction hob all by AEG, a dishwasher and fridge-freezer from BOSCH and a stainless steel sink by SMEG with Grohe brassware.

The hallway, kitchen / diner, living room and study feature engineered oak flooring.

Off the hall is the study with views over the rear garden, ground floor w.c and separate under-stairs cupboard.

On the first floor are three very generous double bedrooms, one of which features an en-suite. The family bathroom offers a low flush rimless w.c with bidet wash, bath and separate dual head shower. All bathrooms and en-suites within the home feature high quality modern white suites with contemporary brassware. Premium Metro wall tiling in classic white and non -slip porcelain floor tiles in anthracite complete the suite.

The landing comes equipped with a large storage wall including two storage cupboards and a large concealed laundry area complete with plumbing for a washer / dryer.

The top floor (second) exclusively provides a vast, highly impressive master suite with luxurious en-suite bathroom and large walk-in storage cupboard. If desired, the master suite could easily accommodate a private sitting area or nursing / new born bedroom facility.

The property benefits from a private lawned South-Easterly facing garden to the rear and front with attractive stocked borders framing the front pathway and driveway with ample parking for two vehicles and further visitor parking is provided in dedicated areas within the development .

FUTURE PROOF TECHNOLOGY

No 10 Scocles Court has been designed to enhance modern lifestyles and easily accommodate evolving technology.

Heating, hot water and lighting in the principal rooms can be controlled via an app on a smart phone or tablet. The property is protected by a state of the art Honeywell home security alarm and CCTV camera / intercom/camera entry system, both of which can be app based. Furthermore, for ease of access and as an additional security measure the entrance hall is fitted with motion sensor lighting.

Ample double power sockets, finished in brushed stainless steel, have been provided throughout the home, some with USB ports.

A Rolec EV (electric vehicle) charger is provided to the front of the home with wiring for an additional socket.

The property benefits from fibre broadband to site (subject to usual subscriptions) with Cat 5 cabling throughout and telephone/data/TV ports in principal rooms.

As with all of the homes at Scocles Court, No 10 is innately energy efficient being designed in the Passive House style.

The property is heated by an innovative mechanical ventilation and heat recovery system that removes warm stale air generated by body heat and common household appliances, such as ovens, refrigerators, televisions and computers, from the home. The heat is extracted from the stale air and used to warm incoming fresh air which is then circulated around the home.

To achieve Passive House standards, the home is constructed so as to be completely airtight and benefits from the highest levels of insulation. Triple glazed tailor made 'Velfac' aluminium windows and garden doors finished in anthracite are sealed with xenon/krypton gas to provide optimum thermal efficiency and maximum noise insulation.
